DataSys Celebrates 20th Anniversary: Experts in Microsoft Dynamics GP since 1996

Marlborough, Mass. – January 1, 2016

DataSys Corporation is proud to announce its 20-year anniversary as an independent Microsoft Certified Partner specializing in the implementation and support of Microsoft Dynamics GP business management software. We are deeply grateful to our loyal clients, many of whom began this journey with us 20 years ago.

We're especially proud of the DataSys solutions team and the work they do "in the trenches" every day as they execute new implementations while providing support and training to our existing client base. DataSys has flourished because of their skill and their integrity. The phrase that comes to mind is "it takes a village" which is why every member of the team deserves recognition for the part he or she has played in the company's growth and success.

DataSys clients represent a broad spectrum of industries including human services, healthcare, life sciences, distribution, food services, insurance and finance, software development, professional and consumer services, wholesale, and retail. We take special pride in the work we do for scores of local, regional and national nonprofit organizations that tirelessly support our society's most vulnerable members.

"When DataSys opened its doors 20 years ago," says Lisa Daigle, Founder and President, "I put three stakes in the ground. First of all, the software had to work for customers, day in and day out. Next, DataSys' integrity would never be for sale. Third of all, I wanted us to be known as 'the company that cares.'"

Daigle continues: "There is no greater reward than a satisfied customer. There is no greater satisfaction than a team who shows up to work every day to make a difference in customers' lives. Prior to starting DataSys, I managed the breast cancer clinic at the Dana Farber Cancer Institute, and I saw first hand how world-class professionals can make a difference when they work together as a team and continually invest in learning. DataSys brings world-class services to our valued customers."

20th anniversary events will be announced in the near future.
